- Convenient access to a large loaner inventory
- In-depth FirstCall™ probe testing
- Competitive repair pricing
- Dedicated account management
- Quality driven, ISO 9001 and 13485 repair processes

Simple process designed to save time

Our convenient process offers:

- Next day loaner service¹
- Same day evaluations
- Knowledgeable customer service
- Rapid turnaround times

¹Subject to availability.

Quality repairs to optimize productivity

In ultrasound, most service related issues involve the probe. For ultrasound users, probe issues make up the most time, effort, and financial risk. We provide quality repair services to optimize the performance and lifecycle of probes.

GE technicians maintain exceptional standards as we service, validate and repair probes. By providing on-demand access to quality repair solutions, we help you control downtime.
